HIS	TORIC UNDERSTANDING - Individ	duals, Groups, and Institutions; C	Conflict and Change; Beliefs and I	deals
	SS6H1 Explain conflict and change in			
	Latin America.			
	a. Describe the influence of African			
	slavery on the development of the			
	Americas.			
	b. Describe the influence of the			
	Spanish and the Portuguese on the			
	language and religions of Latin			
	America.			
	c. Explain the impact of the Cuban			
	Revolution and describe the current			

United States.

relationship between Cuba and the

d. Explain the impact of poverty, the war on drugs, and migration to the United States on Latin America.

G	EOGRAPHIC UNDERSTANDINGS	- Location; Movement and Mig	gration, Technological Innovation	ns		
SS6G1 The student will locate						
selected features of Latin America						
a. Locate on a world and regional						
political- physical map: Amazon River,						
Amazon Rainforest, Caribbean Sea,						
Gulf of Mexico, Atlantic Ocean, Pacific						
Ocean, Panama Canal, Andes						
Mountains, Sierra Madre Mountains,						
and Atacama Desert						
b. Locate on a world and regional						
political-physical map the countries of						
Brazil, Chile, Colombia, Cuba, Mexico,						
and Panama.						
SS6G2 The student will discuss						
environmental issues in Latin						
America.						
a. Explain the causes and effects of air						
pollution in Mexico City, Mexico						
b. Explain the environmental issue of						
destruction of the rain forest in Brazil.						
SS6G3 The student will explain the						
impact of location, climate, natural						
resources, and population						
distribution on Latin America.						
a. Compare how the location, climate,						
and natural resources of impact trade						
and where people live in Mexico,						
Brazil, and Cuba.						
CIVIC/GOVE	RNMENT UNDERSTANDINGS -	Individuals, Groups, and Institut	ions; Distribution of Power; Belie	efs and Ideals		
		SS6CG1 Compare and contrast				
		various forms of government.				
		a. Explain citizen participation in				
		autocratic and democratic				
		governments [role of citizens in				
		choosing the leaders of the Mexico				
		(presidential democracy), Cuba				
		(autocratic), and Brazil (presidential				
		democracy)]				
		b. Describe the two predominant				
		forms of democratic governments:				
		parliamentary and presidential				
ECONOMIC UNDERSTANDINGS - Scarcity; Production, Distribution, and Consumption						
			SS6E1 The student will analyze	SS6E13 Understand that a basic		
			different economic systems.	principle of effective personal money		
				•		

command, and market, economic answer the economic questions of 1- what to produce, 2-how to produce, b. Explain how most countries have a mixed economy located on a continuum between pure and market and pure command. c. Compare the basic types of economic systems found in Mexico, Cuba, and Brazill. SSE2 The student will analyze the benefits of and barriers to voluntary trade. a. Explain how specialization en. Explain how specializ				- Comment have too distance	
answer the economic questions of 1 - a. Understand that income is received and 3-for whom to produce, and 3-for whom to produce, and 3-for whom to produce, and 3-for whom to produce be produced and an experiment of the produce of t				•	management is to live within one's
what to produce, and 3-for whom to produce, b. Explain how most pountries have a mixed economy located on a continuum between pure and market and pure command. c. Compare the basic types of economic systems found in Mexico, Cuba, and Brazil. SSEZ The student will analyze the benefits of saving. d. Explain how specialization encourages trade between countries. b. Compare and contrast different types of trade barriers such as tariffs, quotas, and embargos. c. Explain how specialization encourages trade between countries. b. Compare and contrast different types of trade barriers such as tariffs, quotas, and embargos. c. Explain why international trade requires a system for exchanging currencies between nations. d. Explain the will describe factors that influence economic growth and examine their presence or absence in the Brazil, Cuba, and Mexico. a. Explain the relationship between investment in human capital (education and training) and gross domestic product (GDP). c. Explain the relationship between investment in human capital (education and training) and gross domestic product (GDP). d. Describe the role of natural					
and 3-for whom to produce. b. Explain how most countries have a mixed economy located on a continuum between pure and market. compare the basic types of economic systems found in Mexico. Cuba, and Barazii. SEEZ The student will analyze the benefits of as wing during trade. a. Explain how specialization encourages trade between countries. b. Compare and contrast different types of trade barriers such as tariffs, quotas, and embargos. c. Explain will international trade requires a system for exchanging currencies between nations. d. Explain the functions of the North American Free trade Agreement (NAFTA). SSE3 The student will describe factors that influence economic growth and examine their presence or absence in the Brazil, Cuba, and Mexico. a. Evaluate how literacy rates affect the standard of living b. Explain the relationship between investment in human capital (education and training) and gross domestic product (GDP). c. Explain the relationship between investment in capital (factories, machinery, and technology) and gross domestic product (GDP). c. Explain the relationship between investment in capital (factories, machinery, and technology) and gross domestic product (GDP). d. Describe the role of natural				·	
mixed economy located on a continuum between pure and market can pure command. c. Compare the basic types of economic systems found in Mexico, and Brazil. SS622 The student will analyze the benefits of saving d. Understand the uses and costs of economic systems found in Mexico, as Explain how specialization encourages trade between countries. b. Compare and contrast different lypes of trade barriers such as tariffs, quotas, and embargos. c. Explain why international trade requires a system for exchanging currencies between nations. d. Explain the functions of the North American Free trade Agreement (NAFTA). SS623 The student will describe factors that influence economic growth and examine their presence or absence in the Brazil, Cuba, and Mexico. a. Evaluate how literacy rates affect the standard of living b. Explain the relationship between investment in human capital (education and training) and gross domestic product (GDP). c. Explain the relationship between investment in human capital (education and training) and gross domestic product (GDP). c. Explain the relationship between investment in human capital (reducation and training) and gross domestic product (GDP). c. Explain the relationship between investment in capital (factories, marchinery, and technology) and gross domestic product (GDP). c. Explain the relationship between investment in comman capital (reducation and training) and gross domestic product (GDP). d. Describe the role of natural				1	
mixed economy located on a continuum between pure and market. C. Understand the reasons and benefits of saving d. Understand the reasons and benefits of saving d. Understand the uses and costs of economic systems found in Mexico. Cuba, and farzil. SS62. The student will analyze the benefits of and barriers to voluntary trade. a. Explain how specialization encourages trade between countries. b. Compare and contrast different types of trade barriers such as tariffs, quotas, and embargos. c. Explain why international trade requires a system for exchanging currencies between nations. d. Explain the functions of the North American Free trade Agreement (NAFTA). SS63 The student will describe factors that influence economic growth and examine their presence or absence in the Brazil, Cuba, and Mexico. a. Evaluate how literacy rates affect the standard of living b. Explain the relationship between investment in human capital (education and training) and gross domestic product (GOP). c. Explain the relationship between investment in capital (factories, machinery, and technology) and gross domestic product (GOP). c. Explain the relationship between investment in capital (factories, machinery, and technology) and gross domestic product (GOP). c. Explain the relationship between investment in capital (factories, machinery, and technology) and gross domestic product (GOP). c. Describe the role of natural				•	
continuum between pure and market and pure command. c. Compare the basic types of economic systems found in Mexico, Cuba, and Brazil.
